25X1 A ⊹	not been determined. The ll9th Gds Hv Tank SP Regt of the 18th Mecz Div, among other units, had been carried there prior to the 1951 summer exercises, but another source reported at the end of August 1951, that the 59th Mecz Regt of the 18th Mecz Div was allegedly transferred from the airfield to the Reiter Kaserne. 59th Mecz Regt may still be located at the airfield, with some of its infantry components possibly being assigned to border guard duty and with its tank components, among other units, having remained at the airfield. The SP guns mentioned in the present report may have actually been T-3k tanks. However, the report may also refer to components of the unidentified medium tank regiment of the 18th Mecz Div which was 25 last confirmed in Parchim in a report of October 1951 by enother source, but has not been observed by regular sources in Parchim since the completion of the maneuver period. In this case, the 59th Mecz Regt was possibly, and the 119th Gds Hv Tank SP Regt definitely transferred to another post.	5X1A X1B 5X1A 25X1
